

# 2020 Annual Report

Building a national community to advance and accelerate undersea and maritime technology innovation.

## Key Accomplishments

*Amidst the backdrop of a global pandemic, UTIC continued to support DoD and their technology needs. 2020 Highlights:*

- 27 topics issued / 22 awards
- 71 proposals in the basket

*Milestones since UTIC OTA Award in 2018 (as of 15 April 2021)*

- 54 projects awarded, accounting for over \$290 million, with 219 proposals in the basket
- 294 UTIC members across 36 states
- Membership comprised of 74% non-traditional organizations, with 70 large businesses, 206 small businesses, 6 non-profits and 12 academic organizations

## Opportunities for Members

Access to best-in-class expertise and, through Other-Transaction-Agreements (OTA), exposure to Navy research and development.

Contract possibilities for non-traditional companies. OTA has opened up \$290M worth of opportunities to help bring technology to market.

54 awards: 31 to small businesses, 20 to large businesses, and 3 to academic institutions. All awards have significant participation by nontraditional contractors.

We convene secure, professional networking opportunities to learn, share ideas and resources, and collaborate.
